Company

Our goal is to help local and foreign companies and individuals with their business activities in today's linguistically diverse world. Multinational business needs communication in foreign languages, often in the mother tongue of the business partner. We offer our professional services to cut away linguistic constraints and so to promote the success of our clients. Our translators, proofreaders, interpreters and teachers working in Hungary and abroad have a long professional history and high educational standards.

Services

Terminology management

Fields of expertise

Legal

Economy, financial

Natural sciences

PR and marketing

Technical/engineering

Corporate and software localization

Quality

We do not agree with the nowadays unfortunately widely accepted opinion, that professional and complex translation tasks can be carried out by less qualified linguists – many years of experience has clearly proven us the opposite, thus we choose our partners and employees according to the following criteria:

- Interpreter's and/or translator's degree
- At least one specified field of expertise backed by proper qualification and experience
- Perfect understanding of both written and spoken forms of the given language
- Traceable references in the field of specialisation at hand

Hence, Turris Babel ensures having the client's best interest at heart in two ways: the translation and interpreting assignments suit our partners' needs both in **technical contents** and **linguistic perfection**.

Quality

We at Turris Babel have long known that product quality must go hand in hand with the quality of the service: the combination of these is one of the most important requirements of a successful business. This is why we decided to introduce the **ISO 9001:2000** quality management system in 2006 which we have re-evaluated each year.

Our office operates according to the **EN 15038:2006** (earlier: DIN 2345) quality standard. By applying this standard we define the working relationship and the work process between the client, ourselves, and the translators.

EN 15038:2006

Memberships

The **Association of Hungarian Translation Companies** was formed in 1994. Its mission is to raise the average level of translation and interpreting services as a regulating and representing interest group. In addition, it wishes to raise public recognition and acceptance of the industry as a whole.

Our company joined the **Budapest Chamber of Commerce and Industry** in 2009, which is one of the main focal points of Hungarian entrepreneurial life and also member of several other chambers of commerce and industry throughout Europe, thus playing a key-role in Europe's economic growth.

Israel Translators Association: one of our main areas of expertise is Middle Eastern languages-based translation and interpreting, hence we created a department focusing on this region and activity. Our team consists of middle-eastern specialists, linguists, experts in political sciences and theology, translators, interpreters and proofreaders.
